

Bi-Fuel® Kit Application and Contents

GTI Series	Engine Power Rating	Engine Type	Panel Option	Vibration Sensor(s)	CSA Certified ¹
25 ²	Up to 300 kWe	Single Turbo, Single Cooler	GPN0100-12	Up to 8	No
			GPN1000-12		
50	301-800 kWe	Single Turbo, Single Cooler	GPN1000	Up to 8	Yes
		Up to Six Turbo, Four Cooler	GPN20XX	Standard (2)	
65	801-1500 kWe	Single Turbo, Single Cooler	GPN1000	Up to 8	Yes
		Up to Six Turbo, Four Cooler	GPN20XX	Standard (2)	
80	1501-2500 kWe	Single Turbo, Single Cooler	GPN1000	Up to 8	Yes
		Up to Six Turbo, Four Cooler	GPN20XX	Standard (2)	
GTI+	Up to 4MW+ ³	Up to Six Turbo, Four Cooler	GPN2020	Standard (2)	Yes
			GPN2030		

¹ CSA Certified Class I, Div. 2, Group D System available. Contact a GTI Authorized Distributor for details.

² Series 25 kits require 12Vdc Power; all other Series require 24Vdc power. Not to be used on generator paralleling applications.

³ Contact your GTI Authorized Distributor for larger applications.

For generator paralleling applications up to 300kW use the series 50 gas train.

CARB compliant configuration kits available up to 3MW.
